

How To Make Your Innergize Drink:

- 1 Mix with cold water or any juice drink using a glass or shaker cup.
 - 2 Close the lid tightly and shake it up or stir until the powder has dissolved.
- * Best taken twice a day, one shake in the morning and another in the afternoon or evening. May be taken in combination with other Reliv products.

While Innergize! is an excellent fluid replacement drink, it is also a great tasting nutritional drink for use during normal and low activity periods. Innergize may also be combined with other Reliv products for added nutritional benefits.
