

Arm Your Immune System

Supporting your immune system has never been more important. Don't lose sleep — instead arm yourself with Reliv Defense – the immunity supporting supplement with the Protect Complex, a synergistic blend of nine powerful ingredients for comprehensive daily immune support.

- Wellmune® (yeast beta glucan) makes your immune system smarter and puts immune cells on high alert to confront pathogens quickly.
- BetaVia™ Pure is the purest algae-sourced beta-glucan available. It's naturally-sourced from a proprietary strain of algae (*Euglena gracilis*) for immune health benefits.
- Reishi mushroom extract, often referred to as “the king of mushrooms,” possesses immense health benefits, such as cell-regeneration and immune system enhancement.
- Tinofend extract: clinically demonstrated to support immune health associated with histamine effects.
- Elderberry extract is a potent antioxidant, loaded with polyphenols and capable of scavenging free radicals that threaten the immune system.
- Echinacea and ginseng are both botanicals that have been used in traditional medicine for centuries to restore and enhance well-being.
- Zinc stimulates immune cell function while supporting hormone production and metabolism.
- Selenium plays an important role in the health of your immune system. This antioxidant helps lower oxidative stress in your body for a stronger line of defense.

We don't take chances with our family's health, so adding Reliv Defense to our daily Reliv regimen gives us confidence that we do everything we can for strong immunity.

— Ashley P.
