

Arm Your Immune System

Supporting your immune system has never been more important. Don't lose sleep — instead arm yourself with Reliv Defense – the immunity supporting supplement with the Protect Complex.

- Adaptogens help combat immune stressors and heighten resistance.
- 2 sources of beta glucan (yeast and algae) for comprehensive immune support. Wellmune® (yeast beta glucan) makes your immune system smarter and puts immune cells on high alert to confront pathogens quickly. BetaVia™ Pure is the purest algae-sourced beta-glucan currently on the market. It's naturally-sourced from a proprietary strain of algae (*Euglena gracilis*) for immune health benefits, and consists of greater than 95% algae beta glucans.
- Reishi mushroom extract, often referred to as “the king of mushrooms,” possesses immense health benefits, such as cell-regeneration and immune system enhancement.
- Tinofend extract: clinically demonstrated to support immune health associated with histamine effects.

We don't take chances with our family's health, so adding Reliv Defense to our daily Reliv regimen gives us confidence that we do everything we can for strong immunity.
