Reliv has given me the ability to retire early and have the freedom to live life on my own terms.

Richard Vance

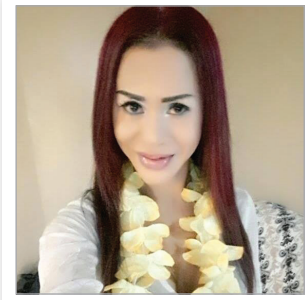

You're never too young to start taking control of your future. I'm glad that I've started building my own Reliv business because it allows me to dream big and I know that it will help me achieve my long-term goals which includes supporting my parents and my family. And while I'm working to grow my business, I'm happy to enjoy all the great rewards along the way!

Ralph Jed Rivera

The products help me achieve optimal health so I can be my best every day. I have a very busy schedule juggling work and various social activities. I know that I can do everything but my body cannot cope sometimes. But ever since I started taking Reliv, I notice that I have more energy so now I can do more and I love it!

Danica Pausa

My Reliv business gives me the opportunity to have more quality time with my family. The additional income I earn from building the business from home helps augment our monthly expenses. I have recently won a Reliv staycation too that I shared with my loved ones and it was a wonderful priceless experience.

Kim Limpangog

Dear Reliv Asia Pacific Distributor,

New Year, New Aspirations

We are now into a new year, with many of us implementing new goals, making the necessary changes and putting them into action. The first few months of the year is the time many of us look to make a decisive change, to accomplish something new. Many of us seek to improve aspects of our lives such as our lifestyle, health and financial situation, searching for various way to make this happen.

Reliv enhances your health and lifestyle; it's a way to improve your finances and to help your friends and family do the same. Everyone is looking for the answer of how to keep healthy and how to make more money. Reliv, with our Mission to "Nourish Our World" in Mind, Body and Spirit, could be just the answer you're looking for.

Our Reliv corporate team strives to make this mission achievable for anyone who has these similar goals in mind or wanting to explore a new business opportunity:

- Provides a home based business opportunity that fits around your priorities with an unlimited earning potential
- Providing a unique product line with the highest-quality ingredients to optimize health
- A proven compensation plan designed to earn residual income and recognition
- A charitable foundation that provides quality nutrition and new hope to thousands of people around the world

My team and I are committed to providing all the key tools necessary to support those of you who are ready to make a positive change in your life and to start or grow a unique business! We have a business that can help you take control of your life, that you can believe in and be proud of, a business that is changing people's lives. Make your dreams happen in 2016 – we'll be with you every step of the way!

Don't just live. Reliv.

Money: Makes Sense with

How much would it take for you to be in a personal financial crisis? For some people that may be only one paycheck away. They have no emergency savings for things like car repairs or an emergency room visit. But you don't have to be a statistic; a plan that includes a Reliv income can set you on the path to financial security.

Create Cash Flow, Not Debt

Entrepreneurial success comes when you stop trading time for money, even just a little. Whether you're looking for part-time income to help make ends meet or ready to work your way out of a traditional job, starting your own business is a powerful step toward financial freedom. As your business grows, you gain independence — from unpaid bills, from limited resources and eventually from working for someone else.

The best part is that it's your business. You set your own schedule, you decide your business strategy and you decide how hard you want to work. Regardless of your personal goals for your business, one thing is certain: **you earn what you're worth, and there is no limit to how far you go.** No need to wait around for a boss to give you a raise — take action and make it happen!

But starting a business can be easier said than done. Traditionally it means finding a product, creating a business plan and developing the manufacturing, marketing tools and other operations. Of course, don't forget taking out big loans to make it all happen. Startup costs can bankrupt a new business before it even launches.

Reliv offers an alternative. From the moment you sign-up as a Reliv Distributor, you have the product, business plan, manufacturing, marketing and more already in place. With a minimal investment and something as simple as a spiral notebook, you're in business!

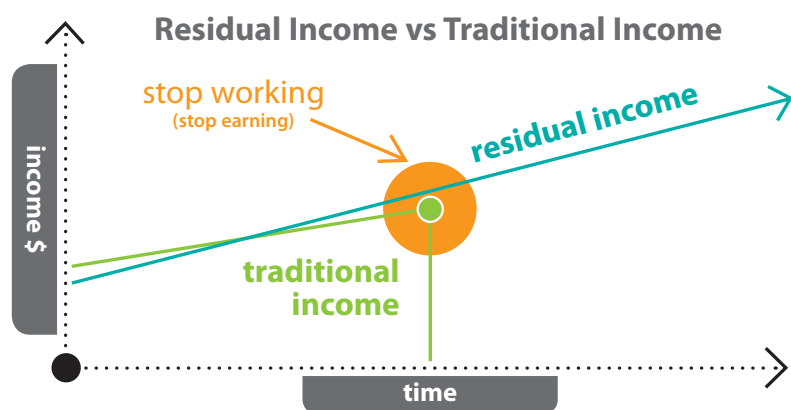

a Reliv Business

Ready for Steady Growth

In a traditional career, your pay is determined by your educational background, experience and the whims of your managers. You could spend years waiting for advancement because a position is currently occupied or your company structure isn't set up for promotion. These years of lost income can mean pushing off retirement until your finances are more secure.

With network marketing, on the other hand, you are not limited by circumstances beyond your control. Unlike a traditional job where your salary is your salary no matter how hard you work each day, a network marketing business pays you based entirely on your personal performance. **You work, you succeed, you get paid — in that order.**

Reliv takes it to a whole new level. Our advanced nutritional products are guaranteed, in demand and consumable. People who use Reliv products order them month after month, and you get paid with every purchase. So the work you do now can literally pay you for the rest of your life, and earnings accelerate as your business grows. That's called residual income, and it's the key to long-term financial security with Reliv.

In Business for Yourself, Not by Yourself

Starting a business can be scary. Reliv makes it easy: proven products, proven tools and a proven plan for success based on 27+ years of experience. Best of all, you'll have the support of your fellow Reliv Distributors — mentors who can share advice, contacts and business approaches that have worked for them. And we're always here at Reliv when you need us.

So what are you waiting for? Start earning what you're worth with Reliv.

Feeling Energized with Reliv!

Healthier and Forever Young!

It Works!

because of Reliv
HEALTHY STORIES

DR WIDJAYA HARJANTO AND TJENDRAWATI GUNAWAN

SENIOR AFFILIATE

I have a problem with being underweight. There are many reasons why adults are underweight. I am genetically skinny where I have higher metabolism rate in comparison to others, that is why my body was underweight. Before I joined Reliv, my weight is 47 KG, I ate a lot of extra food, took several kinds of supplements and medicine. I was also tired in the mornings so I would sometimes drink two cups of coffee to keep me alert while during drive my car to my clinic.

After taking Reliv Now®, I started putting weight back on. I currently weigh 57 KG and feel much better! I now wake up in the mornings feeling energized and ready to take on the day no longer feeling the need to drink coffee in the mornings. Because of Reliv, I feel healthier and look healthier! Thank you Reliv!

JULIANA SIMBARA

KEY DIRECTOR

I started using Reliv products almost two years ago and am implementing a nutritional plan and exercise. One of my ultimate favorite products is Reversage. I was truly impressed and saw results after only a few days. My skin was glowing, looked smooth and skin problems improved. These product really work and over time help you create lifestyle changes that keep you youthful, energetic and your body strong.

I share these incredible products with all my friends in college and in the gym. They are really enjoying Innergize!, feeling increased stamina and energy when exercising. My family also receives good benefits from this product and all of them are interested in becoming Master Affiliates. My business works because Reliv's fabulous product line provides amazing results! Thank you Reliv!

R. AY NOOR JULIA

MASTER AFFILIATE

I just want to express my satisfaction how Reliv Products worked for me. I am no longer waking in the middle of the night with knee discomfort and the first thing my husband and I noticed was feeling less tired all the time. Having energy throughout the day, without the mid-afternoon crash, equals more time for activities and feeling accomplished at the end of the day. We have continued to share these products with friends and family. Before Reliv, a friend of mine complained of joint discomfort in his finger, which he could not bend to touch his palm without excruciating discomfort, making it difficult to work. After taking Reliv Now® and LunaRichX™ for about 2 weeks, he now has more flexibility in his finger, noting much less discomfort. Another friend of mine, whose hair has been receding, went to his barber. As the barber was giving him his usual flat top haircut he asked him what he's been doing because his hair is now thicker! Needless to say our friend is very excited about this product, which is why I am going to continue to order again and again. Thank you Reliv!

Fantastic Benefits!

ALWIYAH MAULIDIYAH (DIAL)

MASTER AFFILIATE

I've been taking Reliv for about a month now. I have more energy. My skin is so soft. I feel significantly less discomfort in my knee. My nails are in the best condition they have ever been in, I have reduced constipation, reduced bloating, indigestion and I have a lot more energy. I have shared Reliv products with my mother and my kids. My mom no longer wakes in the middle of the night and my son sleeps more soundly. Reliv has great products and everybody I share them with benefits from them too. I can't say enough good things about the products. Reliv is fantastic!

Increased energy
and Stamina

SRI SURYANI HADIPRODJO

KEY AFFILIATE

I start using Reliv one year ago when I was struggling with my cholesterol levels. When I started taking the products, I noticed right away that I had increased energy that sustained me throughout the day and I was sleeping much better. After a few months, I notice my cholesterol had improved and my levels were back into a healthy range.

When I visit the doctor, he was really amazed with my results, encouraging me to continue to exercise, so every morning I walk the jogging track. I'm not so young anymore, but my energy is fully recharged that I feel young again, as I can still beat the young girls who exercise on the jogging track. People are starting ask me about my stamina. I share my results from consuming Reliv's products and this jumpstarted my Reliv business. I believe everybody can earn the financial freedom like I've been done! Thank you, Reliv.

Younger-feeling Entrapreneur

ENDAH ROSDIANA

KEY AFFILIATE

I got started on the Reliv products and found, very quickly, that I had sustained energy throughout my day and a lift in my mood. I just felt better! And I could handle the stresses that had been placed on my job as Batik entrepreneur. I'm a very busy woman, handling so many exhibitions for my Batik fashion line, and need extra stamina to keep up with my activities. I was really amazed with Reliv products. My favorite product is Reversage, which keeps me beautiful on the outside, on the inside and my face looks fresh and still young. I shared Reliv with my family and my friends and they are happy with the results they receive, therefore promoting Reliv to all of their friends and family. Today, I have financial freedom, I have good health and most importantly, have family and friends with good results. I will promote Reliv everywhere I go, so my business will grow everyday! I love Reliv!

THE MIGHTY RELIV PRODUCT AND INCREDIBLE BUSINESS OPPORTUNITY!

By Presidential Bronze Ambassadors Marvin Louis & Liesemiwati Widjaja

Marvin and Lie joined Reliv in February 2009. They started the business from their own family. They tried Reliv products and started seeing results in the first two weeks. Before consuming Reliv, Marvin often complained with stomach pains and his wife Lie, always had migraines. Since Reliv, Marvin and Lie feel their health has improved, and their children now drink Reliv shakes every day. Since feeling the benefits, they started sharing Reliv within their community.

Marvin works in alternative medicine and applies acupressure for patients with muscle and joint issues. "I was lucky. Reliv products can support my patients when they receive my therapies," states Marvin. "My wife Lie and I share Reliv products with patients for their overall health. Not only do we share the benefit of Reliv products, but we also introduce the Reliv business to our patients. We explain how Reliv not only provides the optimal nutrition for good health but Reliv provides financial benefits as well."

Marvin was amazed to hear the satisfaction from his patients and how their health has improved because of Reliv. Patients of Marvin's began to trust in him and started sharing their own stories on how they are benefitting from Reliv nutrition. From that point on, Marvin and Lie's business began to grow. Every day, their business became even bigger. It was unbelievable to them when they received their first cheque of US \$1,963 and earned a cash bonus \$ 1,420, while becoming

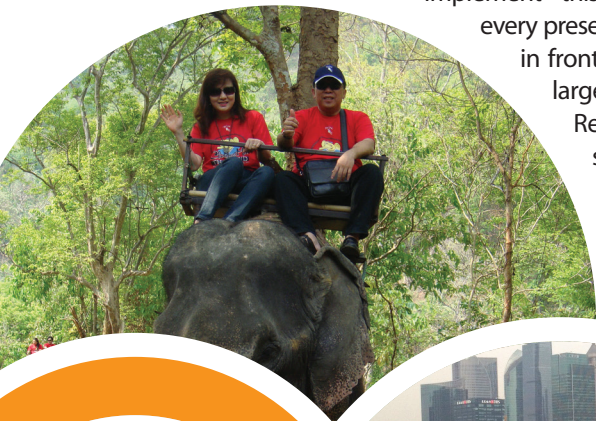

AWARDS!

the highest volume producer in Reliv Asia Pacific. Within three months, they earned US \$5,653, reached the Senior Director level and qualified for a regional workshop in Tagaytay, Philippines, in October 2009. Within a week, they were able to re-distribute their Master Affiliate stocks and recoup their investment. "It was the best decision to join Reliv at the highest level of 40% profit level because of the many benefits and rewards of being a Master Affiliate," said Lie.

"It's not easy to make it big," says Marvin. "It takes hard work and discipline to duplicate your organization. I take this business seriously, create my own print product brochures to support my business and produce Reliv t-shirts as souvenirs for customers who have purchased Reliv products from me. All of this I do out of my own pocket. Because of these mighty Reliv products, success can happen quickly, and it has for us. Reliv products are EXTRAORDINARY. The results are very impressive, concludes Marvin.

Reliv provides an easy way to share the business opportunity. Not only because of the incredible product line, but Reliv's mission is to Nourish Our World in body, mind and spirit. Marvin and Lie implement this philosophy in every presentation, whether in front of very small or large groups. The Reliv mission is a special part of the Reliv story.

Reliv pursues this mission by providing nutritional products that promote optimal health, a business opportunity that offers individual freedom and personal growth, and a charitable foundation that combats hunger around the world. Many Distributors and customers are specially touched by the Reliv Kalogris foundation. Not only do they purchase Reliv products, they also support the Foundation with generous donations.

In Marvin's clinic, all Reliv products are on display, along Reliv achievement awards hanging on the wall. When patients see these, many will inquire about Reliv. "My wife has really helped me to run this business," states Marvin. "While working with patients, I don't have much time during their appointments to explain in Reliv nutrition in great detail, so Lie takes the lead to discuss the products and opportunity, allowing more time for them to hear about Reliv and join."

Marvin and Lie frequently schedule one-on-one presentations with potential prospects, frequently with sponsors and with all this routine activity, Marvin promotes many Master Affiliates (MAs) under his own organization. Why do they want to join with Reliv? Marvin finds that many want to be able to consume Reliv at a higher discount and want to share Reliv with their relatives to start and develop their own Reliv businesses. With Marvin's knowledge, assistance and support, his downline are able to sell their products more quickly. This has helped Marvin and Lie promote many new MAs. As a result, they have achieved the Dr. Ted Plaque. Just this October, Marvin and Lie sponsored 4 Master Affiliates and 11 new Distributors in just the month, earning their SIXTH Dr. Ted Plaque!

"If you asked me why it was easy to earn the Dr. Ted Plaque, as a leader, I always duplicate this business to my downline and provide continual education and training. To share Reliv is to help people to live a better life. I work to motivate them and maintain good relationships with them," said Marvin.

HOW TO ENJOY LIFE WHILE WORKING YOUR RELIV BUSINESS

By: Reliv Indonesia Ambassador Sherry Sjamsuri

Enjoying life is often thought to be a mindset, the result of reflection, action and gratitude. While most of us lack sufficient of free time to find a peaceful place like the beach or mountains to follow our bliss, the best way to find happiness is to make practical, everyday changes. One of actions is to appreciate the people in your life while making space to do the things you're best at. Making small changes soon adds up to a greater enjoyment in life.

"I'm very busy with my job, so I didn't think I had time for anything else," states Sherry. "I stressed to people that I if can't enjoy my time with my family or if I don't allow time for myself - 'me time,' I will live life unfulfilled. Instead, I will find ways to manage it better - I work on my hobbies and release those unfulfilled feelings! I love traveling and try do it a lot. Meeting new and interesting people is part of the enjoyment. Hanging around with positive and interesting people and inspiring yourself helps you live a richer life. This is the way I usually do the Reliv business and it has worked!"

Sherry joined Reliv in October 2004, taking only one month to become a Master Affiliate. In February 2005, she reached Key Director, then Master Director in October 2006 and became Reliv Ambassador. In December 2015, Sherry broke four Master Affiliates, achieving her Dr. Ted Plaque! "I felt so satisfied about my achievement because its positive, good growth and I really enjoyed aiming toward the next level while working with my organization," said Sherry. "As a Reliv Ambassador, I have the responsibility and commitment to share and grow the Reliv business even further in Indonesia."

Sherry's organization is growing more quickly since earning her fourth Dr. Ted Plaque. Now, she has even more Master Affiliates (MAs) in her organization. "Reliv has a great product line as well as a fantastic business opportunity and has changed my life," Sherry continues. "In Reliv, I do lots of traveling as a result of earning these rewards." Not only that, Reliv also allows the chance to earn cash bonuses. How to enjoy life while you are doing Reliv business? Reliv shakes

makes you feel great and it's exciting to share with new people about your experiences in Reliv!

"As I continue to make Reliv shakes as part of my daily routine, I have noticed other positive changes," says Sherry. "In fact, my entire family take Reliv and all are enjoying great health benefits and we all have lots of energy. I believe that I'm a good example of how Reliv can help anyone. You don't have to be sick to benefit from these products. I've always enjoyed relatively good health, and the products have made a dramatic difference in my life. I just feel really, really well. When I share Reliv with my family and my friends, everybody loves it! They received the great health benefits from Reliv products. Besides enjoying the benefits of 'wonderful' nutrition, they also have fun while working for the business. I have a lot of friends and family who are benefiting from the Reliv opportunity- a number that is growing all the time. I believe we also have the opportunity to build new friendships, those that will last a lifetime. This has been my journey and the way I build my Reliv business. I Look forward to building more MAs in my organization and achieving more Reliv rewards like the Dr. Ted Plaque."

"Enjoy the health benefits provided from Reliv products, while at the same time, enjoy the business bonuses too," Sherry concludes.

Don't give up - Achieve your Dreams!

"Success is the result of perfection, hard work, loyalty, learning from failure and presistence"

—Marvin Louis – Presidential Bronze Ambassador

"Everyone has different goals and objectives. In general, we have the same thing in mind — to earnestly set goals to achieve our dreams. By definition, if you do something "earnestly", you do it in a serious, heartfelt way. Unfortunately, sometimes people lack the knowledge of how to implement their goals, therefore lack fulfillment in their lives. For example, if we fail the first or the second attempt, some people will immediately give up.

As we all know, being rejected by a new prospect the first or second time can make us feel as if our future is not in sales. When you lose the game the first and second times, you may feel like you have no potential. Consequently, failure is a valuable lesson that we should learn; don't see it as a stumbling block. Do not give up before you achieve your goal. In times when things seem to be tumbling down and you want to give up, just remember to keep persevering as you can, and will, achieve success."

WHO'S NEXT?!

2015 Reliv International Conference Highlights

2015 Win Your Way promo winners from the Philippines joined Team Reliv Asia Pacific delegation in this year's Reliv International Conference. The annual weekend gathering of Reliv Distributors from all around the world celebrates our company's success and recognizes top performers who help us move Reliv business-building to the NEXT LEVEL and fulfill Reliv's mission to Nourish Our World.

what we loved most about the 2015 RELIV INTERNATIONAL CONFERENCE

DOROTHY & SAMMY TAN, Quezon City
Bronze Ambassadors

"Being part of Reliv International Conferences always excites us. It provides a great venue to meet a lot of Distributors from all over the world and hear success stories that are truly life changing. The Reliv Conference this year in St. Louis, Missouri was no exception. We loved the energy, warmth and fellowship of our co-attendees. Meeting other Distributors from all around the world means another opportunity for us to expand our network of influence and new friends to talk to about a common passion — sharing Reliv with more people.

We loved every moment of this international event but what was truly imprinted on our hearts was being on stage to share our Reliv story during the opening night of the Reliv conference. We hope with that rare opportunity we were able to inspire a lot of people to keep doing the Reliv business. It's the perfect work from home set-up for couples who want to watch their children grow and have a purposeful life! We are forever grateful to Reliv Founder Robert Montgomery for starting this extraordinary company with his wife Sandy 27 years ago. We definitely look forward to partnering with Reliv for a very long time!

JOY VILLENDA, Ormoc City
Reliv Bronze Ambassador

Attending the 2015 Reliv International Conference was truly an eye-opening experience for me. I met a lot of people from everywhere and their success stories strengthened my wall of belief in the Reliv products and business opportunity. It was really inspiring to know that they came from different places from all over the world and yet they gathered together for the same purpose — to celebrate the blessings of great health and financial ease because of Reliv.

From the empowering talks, informative presentations, and the Reliv Headquarters tour, to the fun barbecue party, I witnessed the great camaraderie among the attendees, which made me realize how fortunate I am to be part of this dynamic international community of passionate business-builders.

MARIA LYONS, Cebu City
Reliv Bronze Ambassador

In my 15 years of attending Reliv conferences, I have always enjoyed meeting new people and hearing their remarkable stories — both health and lifestyle related. These stories have never failed to fascinate and inspire me to keep sharing Reliv. I find it so amazing that through Reliv products and business opportunity, people's lives change for the better. With this change comes a bigger vision — to reach out to the needy and be an agent of hope. Thankfully, Reliv is a company that knows how to support its Distributors to help them realize their health and wellness goals, as well as their vision to touch people's lives.

My favorite part of the 2015 International Conference trip was spending time with Reliv Founder and Chairman Robert Montgomery, as well as the rest of the Reliv International corporate executives. I felt their tremendous love and support to Reliv Distributors and that wonderful emotion has left a ball of fire within me — which encourages me to reach out to more people and talk about Reliv with stronger passion and excitement.

GENEROSE & WILLY UY, Calbayog City
Reliv Ambassadors

We truly enjoyed our Reliv International Conference experience this year in St. Louis, Missouri! We learned a lot from the fully-packed conference agenda, Reliv HQ and manufacturing plant tours, as well as all of those people we met during the 4-day Reliv event. But the theme "Power of You" was our most remarkable Conference takeaway this year. For us, it was really about sharing Reliv with more people, to provide hope and give back to humanity.

We are also thankful that aside from qualifying for this year's Win Your Way to the USA promotion, we also won the St. Louis Challenge and became part of the exclusive dinner with Reliv Founder Robert Montgomery, Reliv Asia Pacific President Scott Montgomery and the rest of the corporate team members, plus other top business-builders from Asia Pacific. It was indeed a great honor and privilege for us to achieve this once in a lifetime opportunity!

Doing Reliv Business on Their Own Terms

One of the top reasons people are enticed to engage in direct selling is the opportunity to be in complete control of how they invest their time and how they go about building their business. Since its inception in 2001, Reliv has provided a great income opportunity to countless Distributors all over the country and allowed them to build a thriving business on their own terms. Read on and be inspired by these remarkable Distributors who consistently earn from Reliv, while continuously enjoy their personal time freedom.

● **Name:** Pia Mauleon

Area: Las Piñas City

Gigs: Stay-at-home mom and part-time Reliv Distributor

Back for Good

Pia and her husband Chito signed up with Reliv in 2006 and worked their way to become two of the most successful Reliv Distributors in Metro Manila. They decided to lay low after a few years due to a family matter but continued to share Reliv whenever possible. Destined for life-changing opportunities, Pia found her way back to Reliv last year and started rebuilding her direct selling business. "I am thankful that Reliv is such a great business model and that when life throws a curve ball at us in this industry, we can stop and then continue where we left off. When we were ready, we bounced back into the business with renewed energy and new perspective. Part of my strategy in business-building this year is to focus on retention because I believe that as I work on achieving repeat purchases from customers, my baseline monthly volume increases," shares Pia.

With refueled passion and stronger drive to succeed, this loving mother of four was able to qualify for two consecutive Reliv trips: 2014 Reliv Leadership Camp in Baguio City and 2015 Reliv Asia Pacific Leadership Summit in Phuket, Thailand. These fantastic incentives have motivated Pia to work on higher goals and move her business to the NEXT LEVEL. "I love taking challenges for it encourages me to go out of my comfort zone and push myself to the limits. With the help of my sons, I am sharing Reliv with new prospects using e-commerce, Internet based business applications and popular social media sites. I believe that if we want a different result, we must definitely try a new business-building approach," says Pia.

● **Name:** Maria Luisa Sarrosa

Area: Hinigaran City

Gigs: Government employee, mom and Reliv Distributor

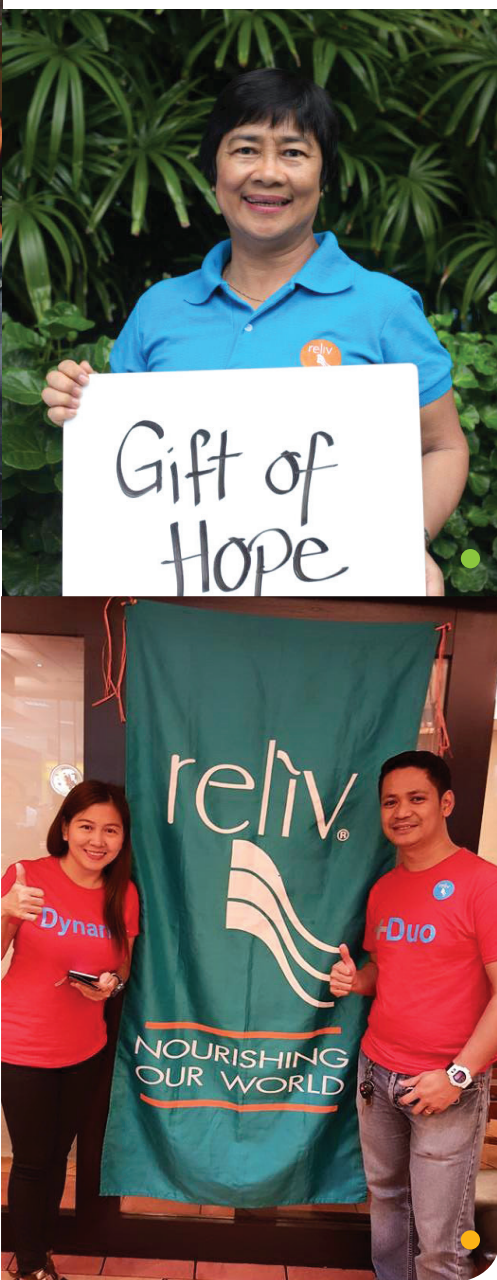

Additional Earnings with Travel Perks

Luisa was encouraged to join Reliv in 2013 merely to avail of product discounts for her family consumption. Her diabetic husband needs nutritional support for elevated blood sugar, while she needs supplements for energy boost. "I began sharing the remarkable health benefits that we experienced with Reliv with my co-employees and friends. After a few weeks, I started receiving calls from various people asking how they can order products. That was how I started building my Reliv business," narrates Luisa.

Reliv business-building complements Luisa's full-time job in the Municipality of Hinigaran. She allots a portion of her free time in giving out flyers and sharing powerful Reliv stories with prospects and yet she gains a lot of good leads. "From my first Reliv paycheck of Php5,000, I am now receiving Php10,000 to Php15,000 every month. And just recently, I qualified for Reliv's Win Your Way to Phuket, Thailand. Not bad for someone who's doing the business very part-time. What really drew me to Reliv was the opportunity to help people improve their health and gain an additional source of income," shares Luisa.

The statements contained in this material have not been evaluated by the Food and Drug Administration. The personal testimonials shared reflect individual experiences of Independent Reliv Distributors and are not necessarily typical of the results you may obtain. Reliv products are not intended to diagnose, treat, cure or prevent any disease.

As with any independent business, success as a Reliv Distributor requires a significant amount of hard work and dedication. The individuals featured in this material offer a glimpse into the lifestyle and economic benefits they are enjoying through the Reliv opportunity as a result of their own skills and personal effort. These stories are examples only and are not intended as averages or guarantees.

Name: Lorna Gomia

Area: Bacolod City

Gigs: Part-time Reliv Distributor

Part-time business, Full-time Income

Lorna is already in her 60s but continues to be among Reliv's most passionate and productive Distributors in the Visayas region. She said Reliv is the perfect business model for her because she gets to work at her own pace and without any pressure. "I am thankful that I joined Reliv because it has allowed me to be my own boss, set my own hours and do the business around my priorities. What I love the most about this business is that I am rewarded with steady income and incentive trips for sharing Reliv at my most convenient time!" she says.

Consistency has been Lorna's key to achieving huge Reliv income month after month. "I share Reliv and make follow-up calls every day. It helps me generate more leads and ensures new sign-ups every month — be it Preferred Customers or Distributors. I also make a conscious effort to convert my customers to business-builders because it helps create a more solid and bigger organization, which I know contributes to optimum business growth."

Name: Donnabel & Jigs Cunanan

Area: Malabon City

Gigs: Donnabel (Dentist and part-time Reliv Distributor); Jigs (Restaurant Branch Manager)

Excited for the Future

Donnabel and Jigs never thought they would give Reliv business a try. Direct selling was not their cup of tea and they are both happy with their chosen full-time careers. When their daughter Julia started experiencing remarkable health results with Reliv, they signed up for the Fast Start level to purchase more products at a higher discount level. "We were so amazed with Reliv's optimal nutrition! Julia continued to take the products and we talked about her health progress on Facebook. After a couple of months, a lot of our friends, relatives and acquaintances started asking how they can avail of Reliv products. That's when we realized that we need to take advantage of the income opportunity and that we can do Reliv business around our work schedule," says Donnabel.

One of Reliv's consistent volume producers since the first quarter of the year, Donnabel and Jigs do not wait for the opportunity to share Reliv — they create it. In between work, family and church duties, they aim to talk to people every day, sign up new customers or Distributors each week and hit their business targets come month end. "We see Reliv as a means to ensuring a brighter future for our family — in both health and in finances. We may be new but we see ourselves being in this business for a long time. Reliv products work and these can be our instrument to providing hope for those who have health and financial issues. It's really both humbling and inspiring to be part of a company that has brought nutritional breakthrough in the field of epigenetics. We love Reliv!"

How Goals can Drive Action

Goal setting by itself can have a certain level of effectiveness for your business. Goals without action — not so much.

There is a ton of information you can read about setting goals. Here is an example I recently found.

Your GOALS should be >>

By Reliv Senior Vice President of US Sales **Don Gibbons**

Specific
Measurable
Achievable
Relevant
Tied to time

You get it: SMART. As long as your goal helps you determine what you are going to wake up and actually DO each day — smart makes sense.

For me, goals that I have must lead to a plan of ACTION! That's how I have always seen the Reliv compensation plan used effectively to drive action. It's a process that involves these steps:

- 1) Identify where you are in the compensation plan
- 2) Identify the next level you would like to reach
- 3) Go to work towards the goal of achieving the next level

This is not about “why” — or defining what your purpose of moving forward is. That is VERY IMPORTANT — and it’s personal. This is about the actual actions you will take to move forward, and how those actions can propel you from where you are now to the level you are driving to achieve.

Let’s say you are a Key Affiliate at the 30% level in the compensation plan. You may decide that the next level you want to set as your GOAL is Master Affiliate. This goal is Specific. It is Measurable. It is Achievable. It is Relevant. And it is Tied to time. If you ask me, I think it’s pretty SMART!

You have determined “WHAT’S NEXT” — and now it’s time for your plan. And in Reliv, any plan to grow your business starts with “WHO’S NEXT.” Who is the next person you will talk with about Reliv? How many of your customers want to take the next step and become Distributors? How many of your Retail Distributors want to take the next step and reach the Affiliate level? How can you find out???

ASK!

Asking questions encourages more communication. And it’s communication with a purpose. When you contact a customer, and talk with them about how they are doing, it’s a perfect time to mention the Reliv business again. You can apply this to every single person you have involved in Reliv. Do they know and understand where they are in the compensation plan? Would they like to move to the next level? It’s like asking someone this question:

Would you prefer to have higher earnings or lower earnings?

Crazy question right?!?

What I have seen is this: We “think” people naturally understand what their next step could be. But what you will find, and I’m certain about this, is that people 1) don’t really understand what the next level is and 2) even when they see it, they don’t understand how to get there.

What I have found over the years; given the opportunity people are not afraid to work hard. They just need to understand what they are working to achieve, and how their work will get them to their destination. All of the work Reliv is doing right now in this area is to help you use the Reliv compensation plan to advance your business.

Use Goals to help you drive the Actions to move your business forward. And use the Reliv compensation plan — YOUR compensation plan — to help you keep moving forward.

Multiply your good health *by the power of X!*

A Story of Resilience

By **Kathy Brawley**, Haiti Area Coordinator for the Reliv Kalogris Foundation

Carline

Cap Haitien, Haiti

Imagine you are one of 12 kids. Then imagine that all of your siblings, as well as your parents, are no longer alive. An earthquake, disease, hunger... all of them gone but you. You are alone. Where do you look for family?

That's the situation with the oldest "kid" in the Reliv Kalogris Foundation Children's Home in Cap Haitien, Haiti. Carline's story is one of despair, deprivation and displacement.

Her mother thought she was saving her daughter when she gave her to a friend who was going to take Carline to a family where she'd be safe and cared for. But as it turned out, she became the house slave for six years, before she ran away to the streets.

Eventually she ended up on the streets of Cap Haitien with a younger sister, and was discovered by a member of the committee from the Cathedral of Cap Haitien. This committee cares for street kids, feeding them a couple times a week and trying to get them into school and even a foster home if possible.

When the Children's Home was completed in 2011, Carline was one of the first to be brought into the home by the committee. In the Children's Home, she has food, a place to sleep, and a new family of brothers and sisters who love her and whom she loves as well. Now she attends school, but also attends to the needs of her younger "siblings." On any given day, she can be found cooking, cleaning, dressing smaller children, and just being the older sister/mom that she no longer had for herself. What she has lost in her own life, she provides for the other kids in the Home.

Carline is also quite the musician. On a recent Reliv-sponsored Papa Noel trip, a saxophone was delivered which will bring hours of delight to Carline and entertain the rest of the residents. Because of the compassion of Reliv Distributors who continue to support the Foundation, Carline and the others have the opportunity for a good life filled with caring people.

Brix

Philippines

Brix was a severely malnourished child who has recovered after six weeks of receiving Reliv Now for Kids under the supervision of Beth Perez in Cavite City, Philippines.

Brix is just one and a half years old. There are eight in the family and Brix is the youngest, with his mother expecting their ninth child. His father is a farmer, planting bananas and pineapples and his mother is a scavenger. Pictured above is his mother carrying Brix's brother who is also severely malnourished.

Both parents are very cooperative and have followed Beth's instructions regarding how Reliv products should be taken by Brix to experience the best results. His skin and eyes are bright and the weight gained is truly amazing. He now runs when before he could barely stand.
