"Reliv can be shared anytime, anywhere you are! Be your own boss and set your own hours. Discover what Reliv can mean for YOU."

Lorena Advincula, Bulacan

"We all started Reliv 10 yrs ago, but we also tried other nutritional supplements. In the end, we decided to go back to Reliv." #Feelthedifference #RELIVFORLIFE

Marilyn Arenas, Tagum City

"Happy to be invited again by Ma'am Nancy Elarcosa to share about Reliv at Blessed John Learning School. Parents were grateful to learn the health benefits Reliv's nutritional products can provide for their children." #myfaststarter #AM/PMpresentation

Dolly Lilles, Bacolod

"Tuesday Twinning with my twinney includes twinning in nutrition. For energy and performance we choose to drink Reliv Innergize! Sold 20 cans yesterday!"

Merlyn del Rosario, Davao

RELIV MESSAGE

Bernie Birch

Reliv Asia Pacific, Sales Manager

"Rarely does a response make something better. What makes it better is a connection." – Brené Brown. I watched a short video of a speech by Brené Brown the other day where she wrapped up her talk with this phrase. It got me to thinking about what it is that we do as people committed to the Reliv mission – 'To nourish our world in body, mind and spirit.'

Her talk was on the difference between empathy and sympathy with the premise that empathy is being able to feel what the other person is feeling and to just be with them and let them know that you know how they feel and are there for support.

I realized that this is what we do when we introduce new people to the Reliv products and opportunity. Most of us, if not all of us, have faced adversity in our lives and have probably had periods of poor health to some degree. This allows us to have empathy for the people we meet and to relate to them when we share how our lives and others have been changed for the better from our connection with Reliv.

Which brings me to why our stories have such an impact on others. When you share a story with someone who has poor health or poor finances, you are demonstrating to them that they are not alone and that there is light at the end of the tunnel. You don't have to tell them about a solution, you demonstrate it through the story.

The tradition of storytelling was an important tool in preserving history for tribes throughout the world for thousands of years. Stories allow a connection to be made

between the listeners and the storyteller. This connection strengthens when the story shows an empathy from the storyteller to the listener. You don't need to tell someone the solution to their challenge, you just need to make a connection with a relevant story and they'll realize the solution.

Our business has always been based on stories and always will be. Make sure that you have your kitbag full of stories so that no matter who you are speaking to about Reliv, you have a story that will demonstrate to them that you understand where they are at and they will draw their own conclusion that Reliv is the light at the end of the tunnel.

Real People. Real Results.

DISCOVER THE LIFE-CHANGING HEALTH BENEFITS OF RELIV

It's always exciting when someone new starts taking Reliv. They like the taste of the shakes and how simple it is to take the products. But we find what keeps them coming back for more are the remarkable health results they experience. We're happy to share these real-life stories of people from everywhere and learn how Reliv has helped improve their health and changed their lives for the better.

Name: Margie Janiva
Location: Bacolod City

I wasn't able to work for a year because of stiffness and discomfort in my neck, shoulders, fingers and knees. I took various prescription medicines but they gave only temporary relief. What's worse, medications did not reduce the inflammation all over my body. My movements were limited and I struggled with doing household chores. I felt sad because I thought I was unproductive.

Reliv nutrition helped me to be active again. After a few months on the products, I started to feel revitalized and noticed an increase in my energy levels. Recent laboratory tests show that the inflammation has subsided. With my renewed energy, I was allowed to work again but this time as a consultant in one the local government units (LGUs) in the province. Reliv has also improved the health of my family members in various ways. Seeing how it has benefitted the health of my loved ones is amazing. We are truly blessed!

Margie Janiva

Robert Sonza

Julia Pasigon with daughter Chloe

Name: Robert Sonza
Location: Negros Occidental

At age 4, my daughter Francy was sickly and had difficulty in breathing. Her immune system was weak and she would easily catch colds. After taking Reliv for months, we noticed a significant improvement with her health. She started feeling better and became more active just like any toddler her age. We often found her giggling while playing with other kids or family members.

Since my daughter entered pre-school, she has always been a diligent student. With the help of Reliv nutrition, she is now an active young lady who loves playing volleyball and singing. We are committed to continue sharing Reliv nutritional products with our friends, family, and prospects for as long as we can because these supplements made a great difference in our family's health. Reliv nutrition really works!

Robert Sonza's daughter, Francy

Name: Jun Miano
Location: Davao City

Reliv has been a great blessing to my family. It has not only helped my daughter achieve progress in her behavioral therapy, it also led me to enjoying remarkable health benefits. Before Reliv, I used to suffer from low energy, back discomfort and fatty liver. Within four months on Reliv Now® and LunaRich™ X capsules, my energy and quality of life have improved! Despite my busy work schedule or frequent lack of sleep, I rarely get tired or feel stressed out. What's more, the back discomfort I used to feel when I carried my daughter is no longer a problem. My recent ultrasound also shows that I have a healthier liver! Now more than ever, I look forward to going home because I feel great and have more energy to spend quality time with my family. Reliv is indeed our best opportunity for a healthy life!

Jun Miano

Name: Julia Pasigon
Location: Baguio City

I got my daughter Chloe on Reliv products to help her get the nutrition boost that she needs to be at her best. She is a picky eater and has a speech delay. With her fussy eating habits, she frequently suffered from constipation. I am thankful that I found out about Reliv's nutritional products on Facebook. After a few months on the products, I noticed improvements in Chloe's digestive health, immune system and speech. Reliv's optimal nutrition is truly a perfect way to get my daughter's nutrition back on track to make her grow healthier, stronger and smarter. My husband and I will make sure to make Reliv shakes a part of her daily regimen. Thank you Reliv!

Reliv Opportunity: A HOME BUSINESS THAT WORKS!

Looking for a long-term career that allows you to work from home, set your own schedule and be your own boss, while keeping yourself on track towards financial freedom? We invite you to take a look at the rewarding income opportunity that a home-based Reliv business offers for everyone!

Generose & Willy Uy
Reliv Ambassadors
and President's Team members

Ambassadors **Generose & Willy Uy** of Calbayog City found their dealership business quite lucrative but demanding, and they struggled to find time for family bonding. They decided to join Reliv as Distributors in 2011 and took their focus to achieving success with their home-based business. Now they are not just earning well, they also enjoy time freedom and the lifestyle of their dreams.

"Reliv has allowed us to be the parents we always wanted to be while earning an income that far exceeds what we imagined possible from a home-based business. We have the freedom to really enjoy life with our son Aaron because we are in control of our time, as well as our business decisions.

We took our Reliv business online in 2013. Facebook marketing has helped us promote Reliv to a larger audience and target the right people. Hence, we have been able to get more leads and close more sales. With this convenient online platform, we were able to reduce our marketing expenses and grow our income by leaps and bounds. What's more, we are always hitting our business targets, so we are able to qualify for lots of free Reliv trips!" says Generose.

WHY SO MANY CHOOSE RELIV?

There are so many direct selling companies out there, why choose Reliv? Here are a lot of reasons:

- ✓ **Exclusive, patented and proven products offering advanced nutrition**
- ✓ **Target market: Reliv is for everyone**
- ✓ **Low start-up cost: only P3,500 lifetime membership**
- ✓ **No-risk, 100% buyback guarantee and 30-day customer guarantee**
(visit reliv.com.ph/reliv-guarantee to learn more)
- ✓ **Built-in manufacturing, marketing, distribution, customer service and more**
- ✓ **The chance to earn residual income for life**
- ✓ **Successful network of Reliv Distributors with a great interest in helping you succeed**
- ✓ **You can earn bonuses and trips around the world**
- ✓ **You can make a difference by helping others achieve better health and finances**
- ✓ **Offers an option to work from home: part-time or full-time**

LAUNCH YOUR OWN SUCCESSFUL RELIV BUSINESS

You don't have to be a nutritionist or a salesperson to launch a Reliv business. All it takes is sharing what you've found:

- ✓ **You drink Reliv shakes**
- ✓ **You feel better**
- ✓ **You tell people about it**
- ✓ **You can get paid for it!**

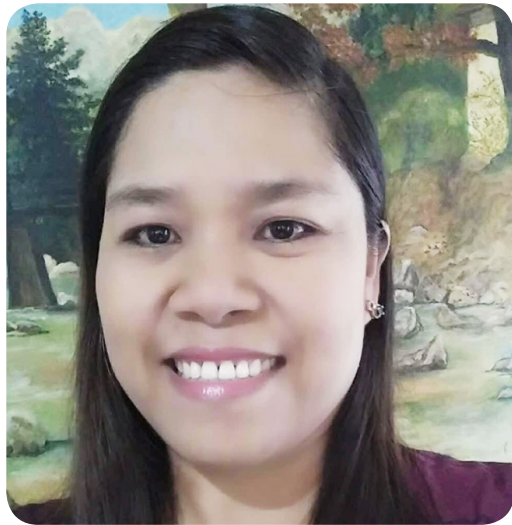

Maria and David Lyons of Cebu City used to follow the traditional way of doing their Reliv business – making a list, setting up appointments, meeting with prospects and closing the sale. This system worked well with them for years and got them where they needed to be. In 2013, a devastating storm hit the country, which led to their adoption of a 6-month-old baby girl.

"At 55 years old, I was faced with a new challenge - managing my Reliv business while being a new mother. On the other hand, my sister, Maria Van Olphen, was building her Reliv sales using Facebook marketing, working from home. I saw the momentum she created using social media. I asked her to help me create my own page. With Marivi's help, social media has changed the way David and I do business.

In August 2016, we launched our own Facebook page and saw our sales increase immediately. We promoted new Master Affiliates interested in social media marketing. David and I agreed to hire and train assistants to handle the overwhelming inquiries from the cold market. Within months, our business exploded, as the assistants duplicated the strategy and invited friends to learn how to build a Reliv business. We held opportunity meetings, reconnected with our existing leaders, and shared our system. We have regular trainings and established chat groups for ongoing support. For the first time in 17 years, we've experienced tremendous sales growth, as new leaders learn and duplicate our system. David, Marivi and I are excited to help more new leaders achieve success with thriving businesses!" shares Maria.

Maria & David Lyons
Reliv Bronze Ambassadors
and President's Team members

Myrlin Ardiente

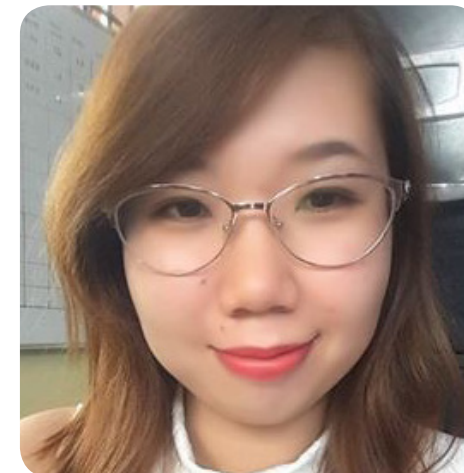

Jun Marcelo

Real People. Real Success.

A HOME-BASED BUSINESS BUILT FOR YOU!

From North to South, from homemakers to career professionals, Reliv offers a home-based business opportunity that can work for anyone!

Ninia Espinoza

Jocelyn Valencia

Name: Myrlin Paculba Ardiente

Location: Consolacion, Cebu

Occupation: Full-time Reliv Distributor

Myrlin decided to give the Reliv business a try when her father-in-law started experiencing remarkable health results with the products. She realized Reliv is something that is worth sharing because it offers people boundless opportunities for better health and finances.

"The main motivation for me to join Reliv was to help my husband provide for the needs of our children. Before Reliv, we could barely make ends meet for the family because of the meager earnings we get from our small sari-sari store. We are so thankful to Reliv for offering an additional income source -- a direct selling business that we can build and operate from home. This particular business model allows us to work around our family schedule and spend more time with our children. That's priceless!"

Name: Jun Marcelo

Location: Tagbilaran, Bohol

Occupation: Full-time Reliv Distributor

Jun was working as a restaurant manager, swamped with countless responsibilities and on-call duties, when he heard about Reliv from his partner. He was eager to try the products and build an online Reliv business where he could have the freedom to work at home and enjoy more leisure time with loved ones. It wasn't long before he noticed a great difference in his health — and his earnings.

"I was excited to give Reliv a try because it offers products that work and a rewarding business that I can do online in the comforts of my home! I started doing Reliv through Facebook marketing last April 2017. This platform helped me connect to more people and gave me an ideal venue to share Reliv's life-changing products and income opportunity. In less than five months of prospecting online, I was able to build a regular customer base and a start-up group of online business-builders. With the continuous monthly business activity, I started earning a huge steady income, which I never thought I could possibly get from a home-based business. I am happy and proud to be part of Reliv because it has allowed me to enjoy better health, become my own boss and change people's lives for the better."

Name: Ninia Espinoza

Location: Angeles City, Pampanga

Occupation: Admin Assistant/Virtual Accountant/
Part-time Reliv Distributor

It's never easy being a mom trying to juggle several online jobs and caring for a child. Thankfully, Ninia found Reliv to be a perfect fit. Allotting a portion of her time to sharing Reliv online, Ninia was able to build not just a network of customers and Distributors, but also monthly Reliv pay-checks.

"I found Reliv online last November 2016 when I was looking for a supplement that could help my son with his health. I was encouraged to start him on the products right away because I read a lot of powerful stories that validated their effectiveness. After taking Reliv for months, my son's health improved and I thought of sharing this great news with parents who want better health for their children. I created a Facebook fan page for my Reliv business. Within five months, I was earning a full-time income with this awesome part-time business! My goal for the coming months is to boost my sponsoring numbers, as well as increase my sales volume so that I may always qualify for Reliv incentive trips. My life has never been this fun and exciting. Thanks to Reliv!"

Name: Jocelyn Valencia

Location: Bacolod City

Occupation: Full-time Reliv Distributor

Jocelyn started re-focusing on her Reliv business right after she retired from her long-time job as a pharmacist in 2016. With more time on her hands, she decided to become a full-time Reliv Distributor, took advantage of the highest profit level and started sharing the Reliv opportunity online.

"Conducting Reliv business through social media has allowed me to reach out to more people. By posting about product benefits, event invitations or powerful testimonials, I was able to build a regular following on Facebook, which later on led to new customers and prospective Distributors.

Sharing Reliv from the comfort of my home is more efficient and economical. I can save on transportation, energy and meet-up expenses because I don't need to leave the house to meet prospects. I have more time to look for new people from everywhere to join me in this rewarding business. I hope more and more people will seize the opportunity to earn big with Reliv's home-based business!"

FINANCIAL DISCLAIMER: As with any independent business, success as a Reliv Distributor requires a significant amount of hard work and dedication. The individuals featured in this material offer a glimpse into the lifestyle and economic benefits they are enjoying through the Reliv opportunity as a result of their own skills and personal effort. These stories are examples only and are not intended as averages or guarantees.

Reliv International

BEST BUSINESS PRACTICE

Social Media Guidelines

Distributors may utilize social networking sites e.g. Facebook, Twitter, LinkedIn, blogs, forums and chat rooms or other social shared interest sites to communicate information about the Reliv products and business opportunity.

The following are REQUIREMENTS when using any form of social networking or Social Media:

- A)** Distributors must include their name and clearly identify themselves as an **"Independent Reliv Distributor"** on all posts or profiles generated in any social community where the individual mentions or discusses Reliv.
- B)** Distributors are prohibited from using any Reliv trademark, product name or logo in their user name, profile photo, blog name or fan/group pages of any social community. Reliv Distributors may **use the approved "Independent Distributor Logo"** approved for social media from the content library. This is the only approved logo for social media use.
- C)** Those Distributors who have existing fan pages, group names that include the Reliv trademark, product names or company logos will need to change or delete this information in accordance with Reliv's Policy and Procedures. Reliv is aware that some sites such as Facebook do not allow users to change existing fan pages or groups. For this reason, users with existing sites will need to create a new page or site and redirect users accordingly.
- D)** Distributors are personally responsible for the content they publish in the social community. In addition, as the site administrator, owner, or moderator, you are responsible for the content posted by others including personal testimonies.
- E)** Distributors must make it clear that they are speaking for themselves and not on behalf of Reliv International, Inc. Visitors to any Distributor's blog site, fan page, group, tweets or any other form of social networking should not be left with the impression that the content is being published by or on behalf of Reliv International, Inc.

The following are GUIDELINES to follow when using social media and social networking:

- A) Respect your audience.** Do not make ethnic slurs, personal insults, use obscenity or engage in any conduct that would not be acceptable to Reliv. Distributors should also show proper consideration for other's privacy and for topics that may be considered objectionable.
- B) Value with your posts and comments.** Provide meaningful information. What you publish may reflect on not only you and your personal organization but also Reliv as a whole.
- C) Distributors may link to the Reliv corporate home page or any other website produced and maintained by Reliv.** A Distributor may not link to any third-party website in connection with the promotion or discussion of the Reliv products or business opportunity.
- D) When in doubt do not publish it.** Remember that there are always consequences to what you publish. You have sole responsibility for what you post and what is published on your blog, profile, or in any form of online social media.

As required by these Policies and Procedures, a Reliv Distributor that sponsors another Distributor through the use of his/her social media site is required to provide adequate training and support to the sponsored Distributor with respect to the Reliv business opportunity. If Reliv, in its sole and absolute discretion, determines that a Distributor has refused or failed to provide the necessary support and training to a sponsored Distributor, Reliv may re-assign the sponsored Distributor to a new sponsor at Reliv's discretion.

Distributors should be aware that when using blogs, chat rooms, forums, social networks or other online methods to communicate information about Reliv's products or business opportunity, those communications may be regarded as advertising. To the extent those methods of communication are used, the Distributor is responsible for ensuring the content complies with Reliv's Policies and Procedures and any other applicable laws and regulations or guidance set forth by the relevant authorities.

In case of violation, Reliv requires the offending Distributor to immediately remove the advertisement and/or information which is in violation of Reliv Policies and Procedures, and reserves the right to take any other disciplinary actions deemed appropriate against the offending Distributor.

EBAY AND INTERNET SALES :

Except for orders of Reliv products made through use of the Reliv corporate website,

Distributors are STRICTLY PROHIBITED from marketing or selling Reliv products through use of Internet auctions, websites or other means utilizing the Internet as a means to complete a sale.

For example, any sales of products through **eBay, OLX, Shopee or a website** (other than Reliv's corporate website) **containing a shopping cart or similar capabilities are prohibited.** Such sales divert potential customers from Reliv Distributors and threaten the integrity of the Reliv business model. Accordingly, any violation of this Policy and Procedure may result in immediate termination of the offending Distributor.

Domain Names: Distributors are prohibited from using or registering any of Reliv's names, trademarks, product names, service marks, or anything confusingly similar to these names or marks, for any Internet domain name, display banner, URL, forum, blog or chat room name, etc.

Repackaging Prohibited: Distributors may not open and repackage the consumable contents of Reliv products for sample or resale in any way.

Product Claims: Reliv Products may not be represented as drugs and Distributors are not authorized to make any diagnosis of any medical condition, make therapeutic claims for, or prescribe Reliv Products to treat or cure any disease or condition. When selling Reliv Products, you also acknowledge that you are not authorized to use, quote from or summarize (in any written or graphic form) any materials or to make any product claim or representation not authorized in writing by Reliv.

FIELD ENFORCEMENT PROCEDURES:

This is a step-by-step summary of the methods by which Reliv Distributors may deal with observed violations of Reliv's rules and regulations:

STEP 1: If you learn of or observe a violation, inform your upline Ambassador about the situation. If your upline Ambassador deems that there is a violation, your upline Ambassador should privately contact the upline Ambassador of the offending Distributor. Uplines have more experience in handling conflicts and it is the responsibility of the upline Ambassador of the offending Distributor to address the issue with his/her downline directly. Often a misunderstanding of the Policies and Procedures can be reconciled in the field through amicable communication. If this is the case, the problem is considered solved and does not need to be referred to the Corporate Office although they should still be notified.

STEP 2: In cases where the offender refuses to comply with the rules, or believes that he or she is in compliance, a detailed letter must be forwarded to Reliv Distributor Relations. Names, places, events and any pertinent documentation should be included. Maintain communication with the offender both before and after contacting Reliv. Be sure you have a strong foundation for the complaint as false reporting of violations are also serious offenses.

STEP 3: Once the complaint is received by Reliv, the Company will take all measures deemed necessary to correct any transgressions. No action will be taken until all available information can be reviewed. Reasonable opportunity for explanation and appeal will be extended to the offender. Decisions in these matters rest ultimately with Reliv.

For questions or clarifications, feel free to contact Reliv Sales Coordinator **Nina Reyes** at **nreyes@relivinc.com** or call the Reliv office at (02) 812-6889.

RELIV ASIA PACIFIC • 2018 WIN YOUR WAY

Voyager of the Seas Cruise

TAKE CHARGE of your Reliv business for more chances to explore new and exciting travel destinations!
