Retail Profits

Wholesale Profits

Ambassador Programme

Retail Profit: 20% – 40%

You retail £/€100 > You make £/€20-40

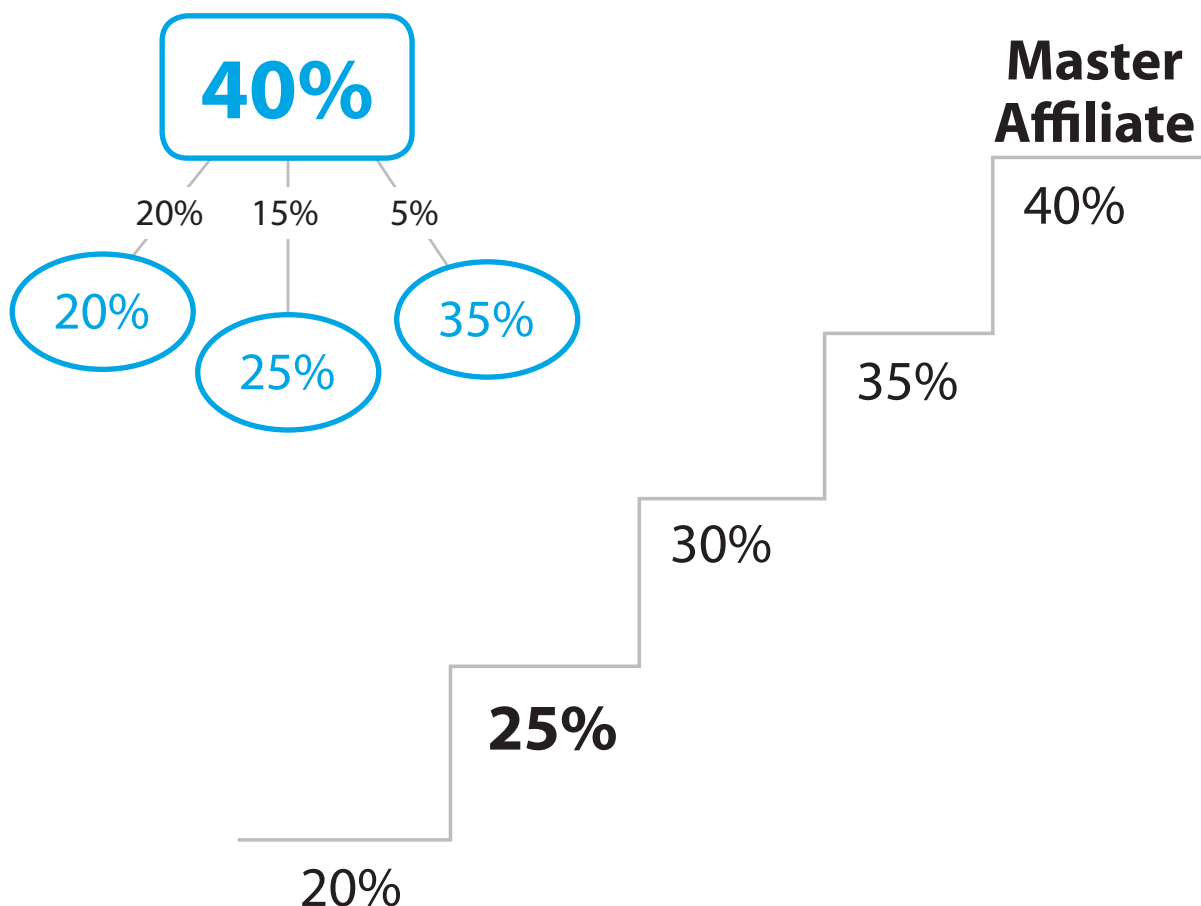

Everyone is a potential customer

- You earn immediate profit when you share Reliv products with customers – anywhere from 20% to 40% depending on your profit level.

Wholesale Profit: 5% – 20%

Sponsoring increases Volume, Volume increases Profit

- You generate wholesale profit when you sponsor another Distributor in Reliv and earn the difference between their retail profit and yours.
- For example, if you are at the 40% level (Master Affiliate) and your Distributor is at 25% (Affiliate), your Distributor earns 25% retail profit for every can of product he/she retails, while you earn the difference between your two profit levels: $40\% - 25\% = 15\%$ wholesale profit.

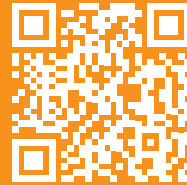

Master Affiliate Unlocks Residual Income

- > Reliv products are for everyone
- > People consume Reliv products month after month
- > You get paid with every purchase
- > Earnings accelerate as your business grows
- > Overrides = unlimited residual income potential

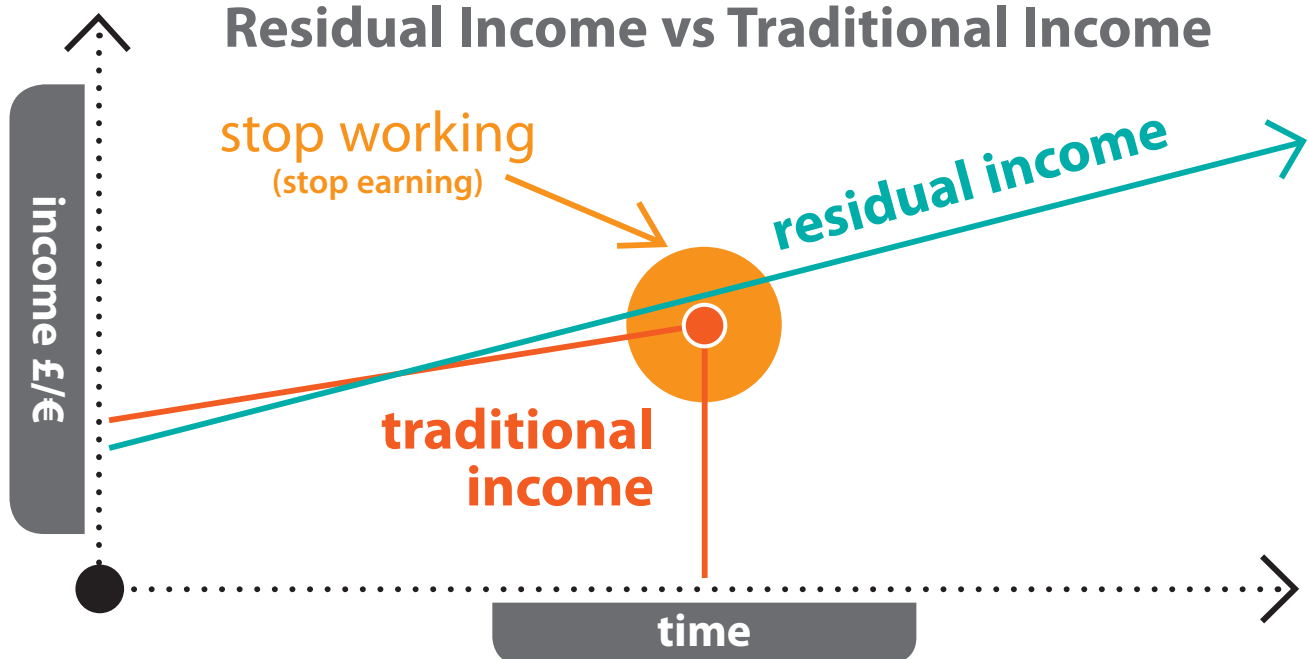

You have residual bills.
*Why not have
residual income?*

to learn about the power
of residual income.

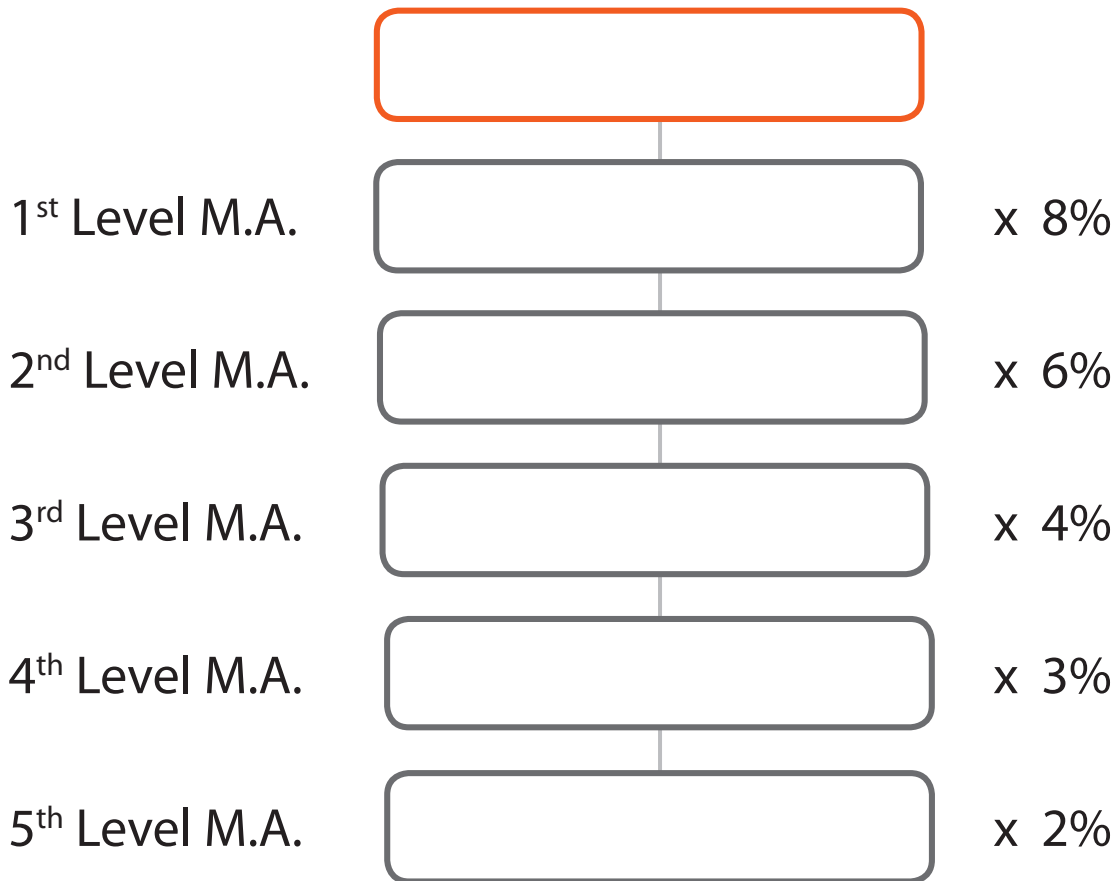

Residual Income vs Traditional Income

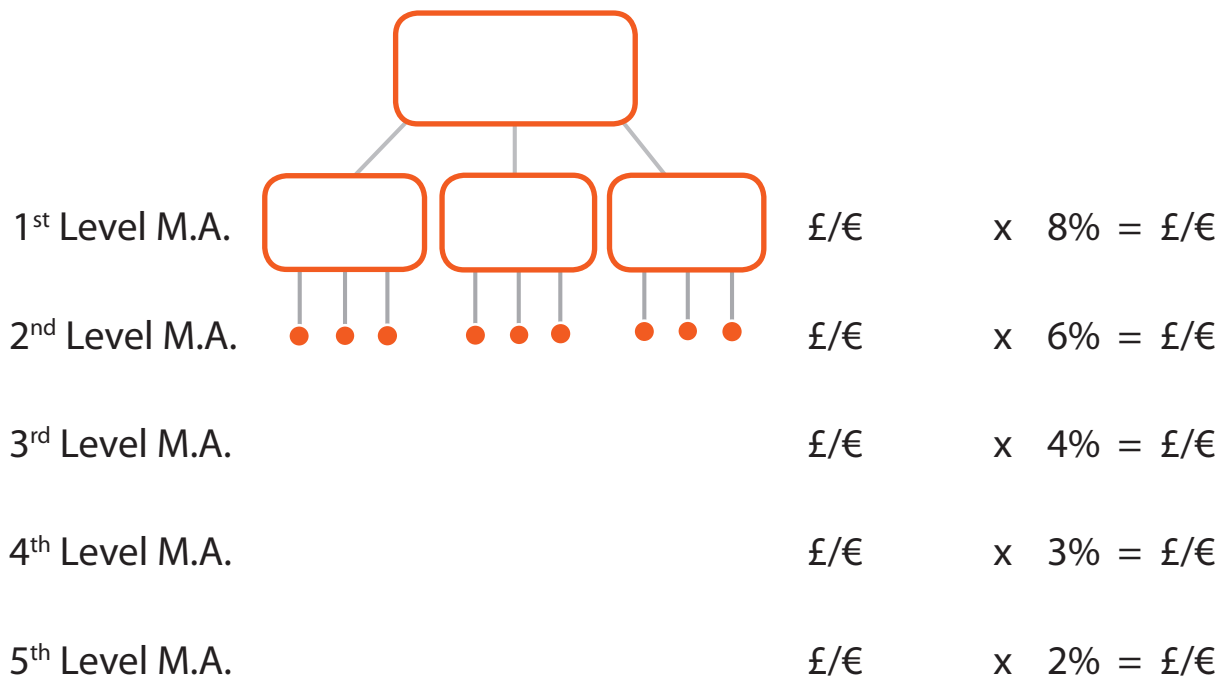

Overrides Calculated on Business Volume

- Once you are a Master Affiliate and your Distributor becomes a Master Affiliate, you can earn 8% on that Distributor's group volume.
- As your organisation grows, and additional generations are created, you earn percentages downward through these generations.

Overrides: Power of Multiplication

Total income £/€

- When others duplicate what you've already done, the power of multiplication can lead to the income you desire.
- And the work you do today can pay you dividends for the rest of your life — also known as residual income.
