Nourish Our World

- 267,000 shakes served every month
- Thousands of individuals served every year — your donations and requests make this possible

**We know what
we are supposed
to eat...**

...but we still don't do it.

**Even when we do eat right, we may not
be getting the nutrition we need.**

5-40% lower in key nutrients

than **50**
years ago

source: American Society for Horticultural Science

**The result: a poor
quality of life and
epidemic rates of
dangerous health
problems.**
