Feel The Reliv Difference

Reliv's core nutrition shakes go way beyond the minimum daily requirements, and are formulated based on the four key principles that make up what we call the Reliv Difference:

- **Bioavailability** - Dissolving nutrients in a liquid shake enables quick, optimal absorption.
- **Synergism** - The ideal combination of ingredients in a science-based formula brings out the full potential in all nutrients.
- **Optimal Nutrition** - Optimising key nutrient levels beyond minimum daily requirements leads to greater health benefits and an improved quality of life.
- **Guaranteed Quality Ingredients** - Our uncompromised quality control program ensures both purity and potency. What's on the label is in the can — guaranteed.

Through regular use of Reliv nutrition, you could experience any of these improvements:

- ✓ Increased **energy** and **reduced fatigue**
- ✓ Improved **alertness**, concentration and the ability to handle **stress**
- ✓ Increased **protection** to fight disease and build defences
- ✓ **Reduction in cravings** for sugar and junk foods
- ✓ Improved **digestion** and elimination
- ✓ Improved **sleep** patterns
- ✓ Improved **fitness** through extra energy

Plant-Based Protein

Studies continue to illustrate the many benefits of soy. Whether you're looking to manage cholesterol, minimise menopausal symptoms, take control of your weight, or protect against health problems, soy is a powerful ally. With Reliv's advanced soy-based products, harnessing the power of soy has never been easier; you get the highest-quality plant-based protein available, delivered the way nature intended.

You'll love Reliv Now and ReShape! Both taste great, are packed with plant-based protein and have higher levels of key nutrients for greater health benefits. Tip: Try adding a scoop of Now to your breakfast smoothie, or use ReShape to refuel after a workout or in place of a meal if you're trying to manage your weight!

powder packs a punch!

Many vitamins and minerals only perform at their best when combined with other nutrients. This is called synergism, and it's the key to why Reliv's balanced formulas work when other supplements don't.

The Reliv Story

The creator of the first Reliv products was the late Dr Theodore Kalogris, who after returning injured from WWII, worked as a consultant for the World Health Organisation and helped eradicate bovine mastitis from South America simply by altering the animal's diet. This led Dr Ted to realise that the key to his own health lay in proper nutrition. Some 10 years of research led Dr Ted to his first formulation, what has come to be now known as Reliv Now®.

"The human body contains an incredible array of chemicals, minerals and vitamins," Dr Ted is quoted as saying. "For an individual to be healthy, all those ingredients must be balanced through proper nutrition. Unfortunately for a number of reasons, many people fail to receive the micronutrients they need to preserve this balance. Nutrition is not a debatable issue; it must be of major concern to anyone wanting to maintain good health."

Dr. Alfredo Galvez:

Reliv's Lead Scientist of Research & Development.
Discovered Lunasin, the First Epigenetic Superfood

Galvez discovered the soy peptide in 1996 as a postdoctoral researcher at UC Berkeley and currently holds 11 patents on the lunasin technology.

Reliv has exclusive rights to the lunasin technology produced through a proprietary extraction process. No one else has been able to effectively extract bioactive lunasin of such quality and in such concentration. Reliv currently owns 4 patents relating to lunasin, and Galvez firmly believes that the company is way ahead of the curve in harnessing the power of this clinically proven superfood.

health > wellness > vitality

FibRestore®

An excellent source of dietary fibre, loaded with 10 grams of soluble and insoluble fibre per serving and 21 herbs, FibRestore contributes to regular laxation.

How does it help?

- **Balance.** Fibre helps keep energy up while it curbs hunger and can help control mood swings by stabilising blood glucose levels.
- **Restore.** Soluble and insoluble fibres combine to gently restore and maintain regularity.
- **Revitalise.** The bioflavonoids in herbs have been shown to protect and revitalise, helping to promote overall wellness.
- **Protect.** With potent antioxidants, Beta carotene, Vitamin C and Vitamin E.
- **Aids Digestion.** Papain and bromelain are two key enzymes that help to reduce inflammation, promote proper digestion, relieve bloating and indigestion and help the body function more effectively.

How much fibre should we eat?

Experts in Australasia and the World Health Organisation recommend an intake of at least 30 grams of fibre per day. In today's modern diet, most people don't get enough. With 10 grams of fibre per serve, FibRestore® can help bridge the gap. Eating adequate fibre each day helps manage or may assist in preventing:

- bowel disorders
- type 2 diabetes
- cardiovascular disease
- weight gain

Because of Reliv, I have noticed a huge decrease in hot flushes! Not only has Reliv helped keep me healthy, but it has also helped my mum and her friends stay healthy. They love being on the products and tell all their friends! It's nice to have extra money pop into your bank account every month as a Reliv Distributor. Every little bit helps! RUTHANN B

Reliv Innergize!™

Energy for Your Busy Lifestyle

A delicious, tangy lemon flavoured **electrolyte drink**, efficiently replaces fluid and essential electrolytes; sodium, magnesium, potassium and calcium, lost during physical exertion, while providing a speedy, yet sustained source of energy.

glutenfree

K

Why is Reliv Innergize so effective?

- Contains a balance of simple and complex carbohydrates to provide energy.
- Replaces electrolytes, essential for good health — conforming to the highest standards.
- Delivered in an absorbable and delicious tasting (isotonic) drink to protect from dehydration.
- Contains no preservatives.

Help Beat Heat Stress! We often lose essential minerals (electrolytes) when we sweat. These electrolytes are crucial to maintaining concentration and healthy muscles.

Reliv Innergize can benefit those working in industrial heat stress situations, not only as protection from the harmful effects of dehydration, but improved concentration can result in increased productivity and decreased work-related accidents.

What do electrolytes do? Without them the metabolism of muscle cells can be affected; extra strains are placed on the cardiac system, and the body experiences thirst, exhaustion, and resultant loss in performance and concentration.

Reliv Innergize is my go-to sports drink for stamina and energy that I need for full workouts. With this gym buddy, I don't feel too worn-out and find it helps with my recovery after an intense exercise. Innergize allows me to do more reps and yes, it keeps me going! GENEROSE U

I've always led a fit and healthy lifestyle but felt Reliv nutrition could help me maintain my health as I get older. I play golf three times a week and take the Innergize in a drink bottle. It keeps me hydrated and full of energy on the golf course as well as on long bike rides. I really enjoy the taste too and there's no added table sugar like similar drinks on the market. RON B

Reliv A-affect™

Reliv A-affect is your nutritional approach to joint health. Just add one scoop to your favourite smoothie to receive over 20 ingredients that work together to help protect your joints from wear and tear.

A-affect combines the best traditional Eastern herbal therapies with cutting-edge nutrients.

Glucosamine: natural compound found to be effective in rebuilding cartilage, protecting against joint deterioration, and promoting healthy joint function. It also stimulates production of collagen, a key component of the fibrous substance that holds joints together.

Arthred®: hydrolyzed collagen protein, consisting of the same series of 18 amino acids that form the framework of human cartilage and are required for its generation.

Boswellin: herb used in Eastern medicine to help with joint and muscle swelling.

Ashwagandha: herb that reduces inflammation and relieves discomfort.

Using Reliv A-affect and Reliv Now has changed my life! When I started on Reliv in 2007 I noticed how much more active I became and now in my 60s I feel great. Having nursed in the Middle East for 26 years, I returned to Australia with discomfort in my lower back and hands. After six weeks of using Reliv A-affect, I realised I felt more flexible in my body, and my fingers were more relaxed and at ease. Freeing up my body also freed up my work and my lifestyle. Reliv is my insurance for good health and well-being and for getting the most out of life – which I certainly do! **STEPHANIE S**
